CONTENTS

Review
Triple negative breast cancer: the role of metabolic pathways ......................................................... 155
   Dean SJR and Rhodes A

Original articles
Prenatal diagnosis of aneuploidies in amniotic fluid by multiple ligation-dependent probe
amplification (MLPA) analysis ........................................................................................................... 163
   Hamidah NH, Munirah AR, Hafiza A, Farisah AR, Shuhaila A, Norzilawati MN,
   Jamil MY and Ainoon O

Application of combined immunohistochemical panel of AMACR(P504S)/p63 cocktail,
cytokeratin 5 and D2-40 to atypical glands in prostatic needle biopsy ....................................... 169
   Kuroda N

Diagnosis of common bacterial causes of urethritis in men by Gram stain, culture and
multiplex PCR .................................................................................................................................. 175
   Jahan F, Shamsuzzaman SM and Akter S

Endoscope versus microscope in the diagnosis of esophageal non-erosive reflux disease:
a study of 71 cases ........................................................................................................................... 181
   Arul P, Phansalkar M, Alexander T, Padhi S and Vinoth B

Morphometric analysis of epithelial thickness and blood vessels in different grades of oral
submucous fibrosis ........................................................................................................................... 189
   Garg N and Mehrotra R

Estimation of platelet count in unstained peripheral blood smears in comparison with
stained smears and evaluation of its efficacy ................................................................................... 195
   Umashankar T, Thomas BM and Sahana P

Case reports
NK/T cell lymphoma associated with peripheral eosinophilia .......................................................... 201
   Yap E, Wan Jamaluddin WF, Tumian NR, Mashuri F, Mohammed F, Tan GC, Masir N and
   Abdul Wahid FS

α-Thalassemia with Haemoglobin Adana mutation: prenatal diagnosis ........................................... 207
   Zainal NZ, Alauddin H, Ahmad S and Hussin NH

Clostridial aortitis causing ruptured dissecting aneurysm in a young adult female .................... 213
   Subramaniam K, Hasmi AH and Mahmood MS

Benign epithelioid peripheral nerve sheath tumour resembling schwannoma ............................. 217
   Krishnamurthy T and Niveditha SR

Abstracts of Immunology Symposium 2014 ...................................................................................... 223
