

EDITORIAL NOTE

THE MALAYSIAN JOURNAL OF PATHOLOGY – MOVING AHEAD

The entry of the Journal into the 1990s and its twelfth Volume of production sees two significant changes which the Editorial Board hopes will be welcomed by all readers. Firstly, the Journal will henceforth be produced twice a year instead of annually. Secondly, a quick *update* section is introduced. This section aims to provide a brief and quickly-digestible account of any recent development in pathology that may be of interest to readers. Happy reading!
